INTERNATIONAL SUMMER CAMP

An **ESBAŞ** Enterprise

PROVIDES AN EDUCATIONAL AND CULTURAL EXPERIENCE

(Ages 10-15)

Children participating in the International Galactic Summer Camp have the opportunity to share their culture and make new friends from different countries. Not only do trainees receive a unique educational experience, they also engage in several social activities such as the Special Events Night and the BBQ Party!

During the Space Station Simulation Mission, which is the highlight of the program, they improve on their problem solving, time management, and teamwork skills while they take part in the simulation of a space mission including all the real procedures for takeoff, the insertion of the shuttle into orbit, docking with the Space Station, the re-entry phase into the atmosphere, and finally, the landing. Campers also ride NASA-designed simulators while they train like an astronaut!

Train like an astronaut on simulators. ✓

Learn about space science and history. ✓

Make friends with campers from other countries. ✓

Share your culture at Special Events Night. ✓

Party with your friends at BBQ night. ✓
